

# WANTED

FOR QUESTIONING CONCERNING THE OFFENSE OF

High treason

**REMARKS:** On December 8th, 2005 at approximately 2215 hours Makuta, suspected leader of the notorious Piraka gang, disappeared from his residence under most mysterious circumstances. The search squad is working night and day to find out why and how Makuta managed to pull this surprising trick but, as of the time of writing, investigators have very few clues to work with. Unofficial sources say he may have gone into hiding on some unidentified floating island, but no one has been able to confirm this. It is also rumored that Makuta may have used his last evil powers to change altogether, which will prove any future search extremely difficult, if not outright impossible.
